undarkened meaning. undarken lips. undarkened definition. undarkened word origin. in darkened free. is undarkened a word. undarken underarms. define undarkened. undarken neck. darkened skies. undarkened game. what does undarkened mean

---

\*edit\* So after my review the developer upped spawn times. Totally changed the game in truth. It is the basic survival type game and while I have no got into the story or magic yet I have been having some fun with it. Oh and I dunno if it was the horse I killed for meat and parts or what, but beware the black mist.beware! I wake up with a stick. I learn I can knock down trees with a weak little stick(Must be in the twilight zone where sticks beat trees) I can build me a funny wooden hat and a campfire. That is it. Rocks to mine do not exist, animals for animal parts do not exist. It is day 200 and I still have found no signs of life besides myself and trees.No structures.no nothing. I do not even have a volley ball to pleasure myself with.. Started in game with a stick, so I hit some trees, but didn't get any sticks or wood. I found one area with rocks by an area with water, but couldn't hit them because the stick made no noise like it went through the rocks, so I didn't get any rocks. I ran around finding no sticks, wood, animals, structures, food and so on. Looks like this game is just a walking simulator at the moment with nothing to do.. Cannibalism, Black smoke ghosts, And horses.. Imagine a game where you can be whatever you want to be, black or white. You can visit the black son or even the black spirits. You are free to be who you want to be and can craft anything you can imagine. At first I wasn't sure about this game but after playing for 300+ hours, I can say that there's more to this game than meets the eye. I ate my friend's body and was very happy with my experience.. It was a interesting game. Though it looks low quality I game it a chance. It was pretty surpising of the quality. The gameplay was not my style but if you have 5 bucks try it out! Recommended that the devolpers add a control layout and a map.
